Haliburton riders Nathan Petrini, left, and his brother David wait at the starting line for their numbers to be called in the 1983 edition of the Corduroy Enduro. The two were the only local drivers to take part in the annual event. David placed sixth in the junior heavyweight class while Nathan was seventh.

HHSS holds 30th reunion

This will be a big weekend at Haliburton Highlands Secondary School. Former staff and students of the high school, as well as the Minden Continuation and Haliburton Continuation schools will be returning for a reunion.

The gathering has been planned for the thirtieth anniversary of the opening of HHSS on the shore of Head Lake in Haliburton Village. A weekend of activities, including a gala dinner and dance have been planned for the weekend.

Most of those coming back for the reunion will probably find the greatest pleasure in simply meeting old friends they haven't seen for many years. The reunion committee program has allowed a great deal of time for that sort of activity, with an open house planned for Friday evening and all day Saturday at the high school.

To mark this special occasion, The Times has produced a special edition featuring a variety of photographs from years gone by. These photos appear in the middle 16 pages of this week's edition of The Times. We know those who attended HHSS will enjoy looking through the pictures. Those who did not attend the school should also enjoy locating familiar names and faces from these high school pictures.

A special welcome to everyone who is returning for the reunion. We hope you enjoy your stay.

Kenney wants more time to examine accounts

What is considered by most municipal councils to be a routine matter was turned into a matter of principle Thursday afternoon at the Anson, Hindon and Minden township council meeting. Councillor Gary Kenney registered a nay vote on acceptance of the accounts prepared by the township staff for payment.

The procedure followed in most municipalities is for

a summary of the accounts to be circulated at the meeting. The councillors are given some time to look over the figures, questioning amounts or the reasons behind the expenditure, and then finally approving the total amount.

The procedure usually takes no more than 15 minutes to complete.

However, on a number of occasions since taking

office, councillor Kenney has asked that the members of council receive the accounts at least a day before the meeting so they could properly examine the amounts, see how they relate to the over-all budget of the municipality and have an opportunity to formulate questions.

"This has been a ritual for too long," Kenney stated. "I have decided to take a

stand," he declared as the summary of the accounts were distributed. "There is just too much information here. I don't want to give my approval to something I haven't had the opportunity to examine closely." The councillor said that by voting for the acceptance of the accounts he would be "rubber stamping" the expenditure of \$144,000. "I don't feel we can digest this

amount of information in 3-5 minutes," he declared.

The councillor added, "I feel I should be monitoring the budget. We do a disservice to ourselves to say we understand what is being presented here."

Kenney noted that he was not implying the figures were incorrect or that the municipality staff had been spending money unwisely, but as the final authority in

spending money, the council should have a long time to examine what is being spent.

Reeve Lyle McKnight said he didn't disagree with the councillor's stand, but noted the businesses and individuals listed on the accounts summary had to be paid. He said the first meeting of the month came

(more on page 7)

Skyslider looking for new location

The owner of the Haliburton based Skyslider ride, Steve Bowskill, has announced he is looking for a new location for the attraction. The announcement was contained in a press release handed out to over 30 chamber of commerce executives from across the province on Thursday.

The chamber reps were holding a convention in the county and one of their stops included the Skyslider. After enjoying a number of rides, the members were handed tote bags containing various promotional material for the Skyslider and the announcement headed up, "Skyslider is looking for a new home."

According to the press release, the ride is seeking a new location because of what was termed, "the less than enthusiastic political support," the ride has received in its present location. Specifically the Bowskill release states, "Such restrictions as denying signage within the town, refusal to allow Skyslider's seven storey high hot air balloon to fly, and reluctance to allow further development on the hill, have all played a factor in the Slide's decision to seek a new home."

Dysart reeve Murray Fearrey took issue with a number of points raised in the release. "Council wouldn't allow the Skyslider to erect signs all over the place because other merchants would be seeking the same

privilege," Fearrey commented. "We wanted to treat all business people the same." The reeve noted that Bowskill strung a banner across the main street of the village without obtaining the council's approval. He was forced to have the banner removed.

As for the hot air balloon, Fearrey contends that the operator did not meet the conditions of federal and provincial authorities prior to wanting to fly the balloon. Fearrey said among the regulations that were not met was the provision of a licenced operator for the balloon. "We were acting to protect the public," the Dysart reeve said.

Commenting on the need for increased development at the site, Fearrey noted Bowskill had proposed to install a sky run on the hill but would require the use of the ball diamond and parking lot at the bottom of the hill. "We had to make a choice, whether we would give up the parking lot serving the arena and curling/squash club or provide space for a ski run. We decided to serve the most people," Fearrey said.

The reeve claimed the municipality had been very co-operative to the operator in setting up the ride. "I am surprised he is running down this area while searching for a new location for the slide," commented Fearrey. He said he didn't feel the people from other areas would view that action as a very positive attitude.

According to the Bowskill announcement, the Sky-

slider has attracted over 200,000 riders in its three seasons of operation. He estimated the cost of the facility at \$572,000 with the appraised value now of \$1,200,000. The release states the annual promotional budget is \$25,000, with 18 - 22 staff members in season.

"It is the lack of development which concerns the Skyslider," the press release states. "Without development, tourist dollars will flow to other areas and Haliburton may be left behind."

Fearrey responded to the suggestion that a lack of development was a reason to leave the area, by suggesting that the operator must have been aware of who might be attracted to the area before he established the slide. "It is regrettable that other attractions have not followed on the heels of the Skyslider," Fearrey said.

Fearrey suggested that the method used by Bowskill to announce his intention to seek another location was a "pressure tactic". "It is unfortunate the way he has approached this matter," Fearrey said. "I don't know what will be accomplished."

The press release issued by Bowskill concludes, "It is our hope to relocate and become an integral part of a vacation attraction. The Skyslider is a tremendous asset to any area. If you are interested in this unique family attraction please feel free to contact us."

Lindsay 5 open first show here

"It happened while we were driving to Haliburton one day in April of this year to take a course," Charles Leung explains. "As we drove along we decided the five of us should get together since we work in different media." As simply as that, the Lindsay 5 was formed.

The Agnes Jamieson Gallery in Minden is host to the first show ever mounted by the Lindsay 5. Included in the group is:

- Charles Leung, a professional engineer, photographer and artist. He has taught photography at Sir Sandford Fleming College in Lindsay.

- Betty Leung, Charles' wife, a native of China. She is a painter and potter. She works in watercolour, oil, egg tempera, pen and ink, and Chinese brush painting.

- Sadie Barnes, who works in various media, she has been a resident of the Lindsay area since 1979.

- Mary Hartley, lives near Omemee where she paints in acrylics, also capturing scenes in water colour and pen and ink.

- Dorothea Weise who is probably best known in this area for her fetching depiction of cats on smooth and rounded stones.

According to Charles, the group was looking for a "no risk" location for their first show. He was very pleased with the reception they had received in Minden and the welcome from the curator.

He pointed out the individuals who make up the group are all bona fide artists in their own right who had mounted their own shows. However, this was their first venture into a group effort.

The result is a pleasing blend of styles and presentations. The renditions on fungus by Dorothea Weise are perhaps the most interesting variation in the show. However, the work by all five artists provide an interesting change from the usual single artist show.

The work of the Lindsay 5 continues at the Agnes Jamieson Gallery until September 27. The gallery is open 10 to 5 daily, except Sunday.

Two patrons at the opening night of the Lindsay 5 exhibition at the Agnes Jamieson Gallery discuss the display. The five Lindsay artists presented a wide variety of art in various media. Among the more interesting variations was this painting of a racoon, carried out on the face of a fungus.

Canoe slalom races Sunday

The Gull River Open Canoe Slalom is becoming an annual event at the Minden Wild Water Preserve. It will be held again this year on Sunday,

September 18. Practice time will be available on Saturday between noon and 5 p.m.

The Minden Wild Water Preserve is located on the Horseshoe Lake Road One, just north of Minden, off Highway 35, on the Gull River.

Races begin at 9:30 a.m. on Sunday. The course will include up to 15 gates on the dam controlled Gull River

in Grade 2 to 3 rapids. This level of whitewater is exciting for both competitors and spectators.

Possible classes include open canoe singles - men's, women's, junior and masters, and open canoe tandem - men's, women's, junior, masters and mixed.

This race always proved to be entertaining and for those people who haven't seen the new training centre it would be a good opportunity to get a sneak preview.

The official opening will be on the next weekend, Saturday, September 24, at 10:00 a.m.

BLUEPRINT FOR WASTE MANAGEMENT

The Ontario Ministry of the Environment has developed a comprehensive proposal of new programs, controls and regulations for the better management of eight million tons of solid waste and the 60 million tons of liquid industrial waste generated in Ontario each year.

Information meetings to explain this Blueprint for Waste Management have already been held.

Now interested persons or groups will be given the opportunity to make written or oral presentations on the subject at a series of public forums being held throughout Ontario.

Main Street - Minden - 286-3150

Project close to budget

A report to the Anson, Hindon and Minden township council concerning the sidewalk work being carried out in the municipality shows that approximately \$139,500 has been spent on the work so far. This includes some \$23,000 expended on sidewalk construction outside the Business Improvement Area.

The report, presented by Councillor Gary Kenney at the September 8 meeting, shows there is still \$67,000 available to complete the work in the downtown portion of the project. This would include the installation of new sidewalks on both sides of Main Street and along the strip from the Rockcliffe Tavern to Sandy White Woollens.

Kenney noted that the sidewalk work will be more extensive than originally planned, but that this will help accommodate future road improvements. As well he noted that plastic conduit is being placed beneath the

sidewalk as it is constructed, to allow for the installation of underground wiring at a future date.

The councillor noted the work should be completed by the end of October. Work crews started this week on the section from the Home Hardware Store to the Welch building.

Reeve Lyle McKnight said he was being asked by several residents why the municipality had installed sidewalks in the front of vacant land, a reference to the new construction toward the hospital. "I think the sidewalk installation is a step in the right direction, it says we are going to grow, that we have a positive outlook for the future," the reeve commented. He noted the land is vacant now, but it could be put into use quickly.

It was also pointed out that in places where interlocking block has been used, property owners have been allowed to take advantage of the municipal work crews to

have the sidewalk installed on their own property. "There are no freebies," Kenney commented. "These people have to pay for both the material and the labour." He commented

that the extension of the interlocking block to the buildings, such as in front of The Times building or at Dr. Purc's, has added to the attractiveness of the project.

Other portions of the grant project, slated to start in November and completion in 1984, include a walking bridge across the Gull River, construction of cross country ski trails, and the creation of a winter park with toboggan runs at the Scotch Line land fill site.

Public input sought

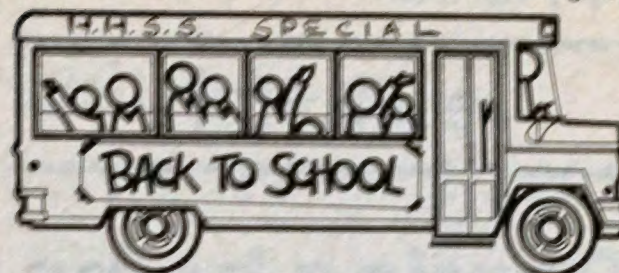

The municipal council may be turning to public for advice on what to do with the newly acquired piece of property on Minden's Main Street.

The question of what should become of the Welch building and associated property, arose at the September 8 meeting of the Anson, Hindon and Minden council. The matter was on the agenda for discussion, however, since deputy reeve Ed Pergolas was absent, it was decided to delay any formal consideration until he returned from vacation.

Reeve Lyle McKnight suggested that the council should seek the opinions of the public before deciding what to do with the property. He pointed out that the property belongs to the public and they should be involved in deciding the future of the structure.

The municipality acquired the land and building in an exchange and cash deal earlier this year.

Councillor Dave Stevens suggested that the "for sale" signs could be removed from the store window.

Just ducky

Ducks of Ontario have a friend in Minden.

The Anson, Hindon and Minden township council has reaffirmed its position that ducks residing within a half mile of the limit of the township's water system are protected by a municipal by-law. That by-law prohibits the discharge of a firearm within the proscribed area.

The water system extends from the Fireside Restaurant to the sewage treatment plant, covering a major portion of the Gull River.

Concern for the safety of the ducks, as the duck hunting season opens, was expressed by Councillor Dave Stevens at the September 8 meeting. He noted that the Minden Business Improvement Area merchants and a number of private citizens have planted ducks in the river. He said these ducks had been placed there for their esthetic quality and as a tourist attraction and he did not feel it was right for hunters to take advantage of their semi-tame nature.

Municipal by-law enforcement officer Dick Schell told the meeting a by-law outlawing the no-shooting area is already on the books. He said signs will be posted shortly in the Rotary Park area and the other sections of the river where hunters might feel they can shoot the ducks.

Get the drop on value!

Top quality, at low prices. That's what you get with our annual back-to-school offer on only two pieces of ski-doo snowmobile gear. Waterproof nylon shells, and/or polyester interlining, quilted to nylon, monolines, provide excellent protection. The child-constructed length jacket has an attached waterproof hood, the youth's durable nylon jacket features a detachable hood, one-way zipper and two zippered pockets. The high-tech helmet has built-in fall line, inside turn caps and zippered pockets.

Because these suits are snug, rugged and good looking, they're ideal for buffer play, and school. Because they're two-piece, you can mix and match pants and jackets, with the kids' other favourite tops. And because of these special prices, they're bound to be a last! So come see us soon, while our selection lasts.

These snowsuits are available in a wide variety of colours.

Coming home

Its good to remember, to recall good times and bad, to enjoy the company of friends who haven't met in many years.

This weekend, former staff and students of Haliburton Highlands Secondary School and Minden and Haliburton Continuation schools will be gathering for a reunion. It's been 30 years since the high school was opened. Many students have passed through these portals in those days and hopefully many will be here this weekend to celebrate this special occasion.

We bid the returning alumni of HHSS welcome. We hope they enjoy this reunion.

Around the back

It's not a burning issue, but it is one we have been meaning to bring to the fore in the past.

Minden's Main Street has been a haven for those who would double park. We've succumbed to that temptation ourselves on several occasions, for only a few moments of course, just to grab a coffee to go.

The most frustrating double parkers however, are the large delivery vans which seem to take delight in not only blocking the driving lane, but parking in such a manner so as to trap as many properly parked vehicles as possible. Most of the stores on Main Street have rear access with adequate space for trucks to be parked while they are being unloaded. This is where this activity should take place.

The problems posed by double parking is about to be compounded. The new sidewalks will be considerably wider than the existing ones. We hope drivers of delivery vans will learn to use the rear entrances for Main Street businesses.

If they don't, it may be necessary for the municipality or OPP to show them the error of their ways.

Cats at the gallery.

Editor:

The Minden Dixie Lee Ladies Baseball Team have challenged our fine Men in Blue to a grudge match on Wednesday, September 21 at the Minden Ball Park.

We feel last year the OPP used dirty tactics to win, like handcuffing our players, using illegal bats and balls and having too cold ice cubes.

We are going to bring in top talent this year to win. Rumour has it that the Blue Jays will send up some relief pitchers.

So if you want to see some high class baseball and have a laugh or two, come out and watch. The proceeds from the collection goes to charity.

Helen Burk,
Minden Dixie Lee Coach.

Editor:

Council's decision to bring pressure to bear on Rockcliffe Tavern proprietor, Dave Willis, in hopes he will then change his entertainment to something more acceptable to council is still yet another example of the needless government interference in both private enterprise and personal freedoms.

Surely council has enough on its plate without mixing into something that sober reflection emphasizes is really none of its business. After all, no one is forced to watch the entertainment whatever it may be. Then, too, the Rockcliffe is not the only game in town. So who is being hurt? Certainly not the patron who may come and go as he or she wishes with or without seeing the entertainment and by

walking just one block continue to enjoy his favourite collation in the Dominion Hotel. Certainly the resident who does not visit the Rockcliffe is in no danger of being corrupted by the entertainment there, if that is the fear.

Mr. Willis and his tavern are not breaking any by-laws; neither are they twisting any arms. Council should demonstrate the wisdom for which, hopefully, it was elected and leave him to run his business as he sees fit.

Tim Hughes,
Minden.

Editor:

I wonder how many parents that have children and when they do wrong our hearts are grieved, but do you ever wonder how God's heart must be grieved when His children do wrong against Him?

God gave us His best, His son Jesus, who died for all our sins, and he offers us freely the gift of salvation. Have you ever noticed the best things in life are free. People reject and condemn that gift which only God our Father can give. Have you ever felt the prick of a thorn in your flesh? I have and I realize what Jesus did for me even more. He not only felt one but many, a crown of thorns was placed upon His head, He was beaten and His side was pierced as He was nailed to the cross for you and me. Can you feel the pain. He must have felt yet He was willing to take our sin upon Him, which no other person could ever do.

You see, parents we have a great responsibility to teach our children about the truths of the word of God. We will all be accountable before God for this as well as our lives. We must set priorities in life, and follow them. What is the most important force or person to me and you in life? Is it God, money, cars, friends, or drink? Each one will answer to God Almighty some day soon for this also.

How we live our life before our children will affect them in how they live their life! They will pattern themselves after their mom and dad. Believe it or not it is true. I thank God for my Christian parents and for the help they have been to me and I have seen their life-style patterned after God.

We have all been given a choice as to where we will spend eternity, in heaven with God or in hell without God! It is up to us as individuals to either serve God or Satan, we can not serve both. "It is not God's will that any should perish, but that all should be saved."

Even in Noah's day we read that there were people who laughed and scorned the work of God, because they refused to believe, so God destroyed them with a flood. Is this what you people want today? "The fool hath said in his heart, there is no God." How many fools do we have in the world today? All the attractions, money, popularity that this world offers us will never compare to the love, peace and freedom that God gives us. There is a void within each one of us that only Jesus can satisfy and fill with His Holy Spirit.

I thank God for pastors that will stand up against sin

and immorality in our country. We need more God fearing men and women who will stand against

wrong issues in our government and our community also. We have many people who attend churches but they are not saved, even pastors. God knows our heart, "Man looketh on the outward appearance, but God looks on the heart", so He knows who is a Christian

and who is not! We need to put aside traditions and doctrine of denominations and be what God wants us to be. Many are in hell today and many more will go there unless they wake up and put their faith in God to save them.

Suppose you knew you would die in 30 minutes, what would you do? Do you know where you would spend eternity? We can know when we ask Him into our heart. You see people, going to church or any affiliation to churches will not get us into heaven, the only ark of safety is Jesus. "Only on life t'will soon be

past: Only what's done for Christ will last". "Every knee shall bow and every tongue confess that Jesus is Lord". Is He your Lord? I am thankful I have made Him mine and I would not trade Him for anything in this world. Will you acknowledge Him as Lord now or on judgement day, the choice is yours? God loves you and is waiting for you to call on Him today!

SECOND CLASS MAIL REGISTRATION NO. 0936

Petition, letter sent over dance issue

The debate over the issue of the male exotic dancer or stripper performing in Minden continued last week at the municipal council meeting, although the councillors refused to add any more fuel to the fire.

The councillors were silent as a letter from Rockcliffe Tavern owner Dave

Willis and a petition signed by 41 residents of the community were read.

The letter from Willis was in response to one sent by the council last month, requesting the tavern owner to not permit shows such as the male stripper act to appear again. Noting that the council's actions had

been prompted by a letter from the elders of the Minden United Church, Willis asked, "...how do they measure 'a lowering of standards and morality and public decency?' His letter also pointed out "...that to enter our premises, you have to be 19 years of age."

Willis goes on to point out

that a letter appearing in the August 24 edition of The Times endorsed the show as "something new and different". The tavern owner noted the need to make enough money during the summer months to carry the business through the winter and reiterated his objection to the township's recreation

committee sponsoring a concert at the arena in competition with his entertainment.

Willis also took issue with the description of what had transpired at the tavern. "What occurred at the Rockcliffe was an exotic dance routine by a male and at no time was he indecent, rude or base."

The owner of the tavern closed his letter by noting that what he termed X-rated movies were available for rent at a number of locations in the county.

The petition sent to the council read as follows: "We the undersigned feel it necessary to voice our opinion with regard to the indecent, immoral issues apparently advertised and being entertained at the Rockcliffe Hotel. We feel it is wrong for such evil and distasteful shows to be

brought into our community, not only for ourselves but we speak on behalf of our children and grandchildren as well. Therefore, we as year round residents and taxpayers ask you the council to take immediate action against this issue at hand as well as others that may arise in the future. We believe that our community should be clean and moral in their business and if the Rockcliffe's business is down and they need such attractions, may we suggest that you consider closing them down in order to keep our town safe and free from such evil minds."

A post script to the petition notes: "There are 41 names on this petition, but if necessary we will obtain more. I trust this will be sufficient to keep our town liveable and one we can be proud of."

Concert provides alternative Reeve tells council meeting

The recreation committee is providing entertainment for people with musical tastes currently not being met in the Minden area. That was an assessment offered by Reeve Lyle McKnight in commenting on the controversy surrounding the Good Brothers Concert Labour Day weekend.

Dave Willis, the operator of the Rockcliffe Tavern, had voiced his concern, through a letter to the editor, that the recreation committee was competing with his business by spon-

soring the concert.

McKnight suggested that the people who attended the Good Brothers concert would probably not have been in the local tavern if the concert was not being held. That assessment was supported by Councillor Pat Burk. "There are three kinds of people here," she stated. "Those who go to the Rockcliffe, those who don't go to the Rockcliffe and those who don't go out anywhere." She said the committee was providing entertainment for those who would not visit the local

tavern.

Responding to the suggestion that the committee was using taxpayers money to hold the concert, Reeve McKnight noted that the same funds are used to sponsor roller skating and other entertainment at the arena. He wondered why there were complaints about the Good Brothers concert when the performance of the Family Brown on the July 1 weekend has seemingly gone unnoticed.

The reeve noted the community centre operates on a \$90,000 to \$100,000 budget,

of which some \$40,000 comes from the local taxpayers. "The committee must generate income for the remaining portion," he commented.

McKnight noted that during all-candidates meetings in the past he had asked the audience for ideas on how to make the arena a paying proposition.

The reeve admitted that the sponsorship of the concerts by the recreation committee could have an impact on the fund raising efforts of various service clubs. However, he suggested the clubs should investigate the possibility of co-producing the concerts with the committee and sharing the profits.

outdoors

Federation of Ontario Naturalists

I've been a little nervous about rabies ever since that summer morning when a neighbour's German Shepherd leapt from behind and put a gash in my thigh. Since the bite was some distance from my heart and the dog's home close by, my easygoing doctor suggested I watch the dog carefully for a few days. If it died I was supposed to come in for the painful round of stomach shots.

Although sinister in that it can enter your life by way of the family pet, the rabies virus is not a ranking threat to public health in Ontario. However, it has proven fatal and taken its toll on domestic animals as well as wildlife, since spreading across the Province in the mid-1950's. Associated annual costs run in the millions. In 1982 a massive outbreak in eastern Ontario produced record numbers. In all, 2281 animals were found to be rabid and 2402 people were treated for possible exposure.

No similar outbreak has occurred this year (although one can be expected every three to four years). Instead, smaller flare-ups close to urban areas have drawn considerable public attention. Virtually all animals are rabies-prone. But foxes and skunks account for forty and twenty per cent of all the recorded cases, respectively. They are also the major source of infection for wild-

life and humans. Foxes play a key role in sparking widespread outbreaks since young ones journey hundreds of kilometres in search of new territory, while older males continue to venture out of their home range during mating season.

Rabies control under these circumstances is a tough challenge. An interim measure used with some success is the airborne seeding of agricultural areas with thousands of meatballs laced with antibiotics. But aside from proving the effectiveness of the delivery system this approach is far less ideal than an immunizing vaccine.

Two types of vaccine are presently under development. Unfortunately, the more effective of the two, presently used in Europe, may involve some side effects, so research is continuing on the other. Dennis Voigt, a rabies research official with the MNR, is optimistic that progress will be swift enough so that an immunization program can commence within a year or two and quickly strip Ontario of its distinction as the rabies capital of North America. In the meantime, make sure your pets are properly vaccinated, and be vigilant in the woods.

Oh yes, the German Shepherd lived, so I avoided the needles. Now I keep my eye on the fox which visits the FON headquarters.

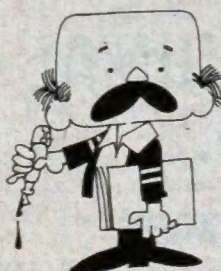

Origins Raven Rock

by Daniel Copeland

Approximately midway along the western boundary of Sherbourne Township one finds Raven Lake. Along the arm of the lake that swings to the south-east, rises the perpendicular rock face from which the lake derives its name. Its name is Raven Rock, and at its highest point, the rock towers 150 feet above the calm of the lake.

In an article for the Toronto Globe, David Francis Burk writes, "It derives its name from the circumstance that all the ravens in this portion of the county breed up on its high battlements".

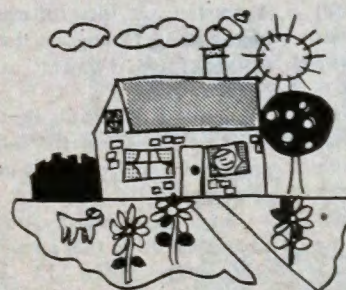

The Indian name for the rock is Kagagee Wabikong which means Raven White Rock. We will leave the reader to interpret that as he wishes.

from the chamber

Once again this week we are pleased to announce more details of our annual meeting day. The annual meeting will be held on October 19 at Wig-a-mog Inn with a full day of seminars and meals available for a very reasonable fee. It is with great pleasure that we report that Dr. David Blenkhorn will be here to lead a morning seminar as our keynote speaker on "Quality Counts—Lessons from the Japanese". Dave Blenkhorn is a member of the Business Administration Faculty at Wilfrid Laurier University in Waterloo and has kindly consented to take time out from his busy lecturing and writing schedule to be with us on October 19.

Our County is beginning to become very adept at getting influential conventions as well as conventions of quite a good size. During the course of the last week the county hosted a convention of the Ontario Chamber of Commerce Executives as well as the executives from CBS Records. Coming up next April and May we have two very large conventions from the Lions Club and the Legion. Thus, we are showing the world that though we do not have large hotels we are capable of professionally handling large conventions.

The new Haliburton Highlands County Maps recently arrived in our office, after a two month delay. They still retail for an economical low price of 50c and are now updated to include metric descriptions of the scenic tours as well as properly numbered roads in the County.

To see and do

September 17 will be a super day to be in Minden as the second weekend of the Harvest Festival gets underway. The theme this year in Minden will be a Caribbean Festival. There will be lots of good food as well as audience participation events and entertainment. Passports are only \$5.00 and are available from the Chamber of Commerce office as well as from the local committees. The \$5.00 passport will get you in to the Stanhope event on the 24 and the Haliburton Harvest Festival on October 1 as well.

The Haliburton Highlands Secondary School will be having a 30th Anniversary Homecoming on September 16 to 18, at the high school. Friday night

will feature a football game and registration as well as a 3 hour reception in the gym. Saturday there will be sporting events throughout the day followed by an open house at 1 p.m. and dinner at 5:30 p.m. Dinner tickets are \$8.00 and available until Saturday morning at the school. Saturday night there will be a dance at the curling rink followed by a late bus lounge at the Legion. Sunday there will be family and church at individual times.

Continuing until September 27 the Agnes Jamieson Gallery in the Minden Cultural Centre is the new show by the Lindsay 5. These five talented artists are presenting works in various media including oils, water colours, pen and ink, pottery and photography. This show is quite fascinating in its diversity and should be seen by all. More details can be gained by calling the Agnes Jamieson Gallery at 286-3763.

The Rails' End Gallery in Haliburton is currently featuring a new show called "Fingering Fibres Exhibit". This show consists entirely of hand-made knitted and crocheted items of clothing and accessories, all of which have been produced by artisans from Ontario and Quebec. And everything in the show is made from fibrous materials. The Gallery is open from Tuesday to Saturday 11 to 5.

Now the fall is here it is a wonderful time of year to visit the Minden Wild Water Preserve on the beautiful Gull River. On September 17 and 18 the Open Canoe Slalom is held on the new site. Saturday there will be practice from 12 to 5 p.m. and on Sunday the Open Canoe Slalom Championships will take place from 9:30 a.m. to 4:30 p.m. This event is wonderfully timed to coincide with the beautiful fall colours so camera buffs may get beautiful action shots with fall colours for the back drop. Cars may be parked in the parking lot on the west side of Horseshoe Lake Road.

If you do not see your special event here that your club or organization is sponsoring you should have called our office. Any group holding a special event may reach the Chamber of Commerce at 286-1760 and give us the many details of your special event that we may mention it in future columns and press releases.

Chamber of Commerce executive, from throughout Ontario were in Haliburton County last week for a convention. The group was taken on a tour of areas attractions, including the Skyslider where they stopped for this photograph. Acting as their hosts, Bob Stinson and Frank McCarron can be seen at the front of the group.

Hospital heliport approved

A heliport at the Red Cross Hospital in Haliburton has received licensing to operate 24 hours a day. Until now, the

heliport has been available only during daylight hours on a special waiver from Transport Canada to operate without a license.

In order to allow 24-hour service, various improvements were made, including asphaltting, concrete work, and installation of lighting and wind sock. The newly licensed facility, to be used primarily by Bandage 1 air ambulance, is adjacent to the hospital.

"Having this heliport open around the clock," said Health Minister Keith Norton, "greatly enhances health care in Haliburton. Critically ill or injured patients can now be moved more quickly and comfortably any time of day or night

to major medical centres in Toronto."

The establishment of this 24-hour heliport has been endorsed by the Haliburton-Kawartha-Pine Ridge District Health Council. At present there are 26 licensed heliports in operation across Ontario. As many as 20 more are expected to be built this year as part of a major expansion program, making 24-hour service available in a much wider area. Technical guidance is provided by the Ministry of Transportation and Communications.

Did you know?

by Ruth Foster

What is aggression? Aggression is a forceful way of indicating feelings such as frustration, anger or despair.

Each one of us have these feelings from time to time and your pre-schooler is no exception.

Anger is a healthy and natural emotion that a child experiences when he is expressing what he feels are his rights. Guilt is another emotion that a child may feel after he has been physically aggressive and these feelings can be amplified if you as a parent are your child's prime target.

The Ministry of Community and Social Services publishes various pamphlets on such subjects as

"Aggression is Natural, Encouraging Independence, and How They Grow? These brochures examine problems like aggression, explain about the feeling and offer suggestions as to how to redirect the behaviour, and overcome the problem. They also contain lists of books relating to specific topics for you as a parent, or for your child.

For further information about these pamphlets, please drop in to our office at the Drag River Municipal Building in Haliburton or call us at 457-2733. Our office hours are 10:00 a.m. until 4:00 p.m., Monday through Friday. And remember, you will never know the answer until you ask the question.

ensures 52 weeks of good reading.

This 15 pound 5 ounce lake trout was the prize catch of Rica Anderson earlier this year. She pulled this trophy size catch through the ice February 17 on Gull Lake just south of Sugar Island. The mounted trophy is on display at Coneybeare's Butcher Shop. Al Coneybeare, proprietor, helps Rica to hold the prize catch.

Mini fair to be tried next year

The mini fair located next to the Anson, Hindon and Minden municipal office will be continued for another year. That was the decision taken at the September 8 meeting of the township council.

The councillors agreed to give the project another year to prove its value following a report from Councillor Gary Kenney, the individual

who suggested the idea late last year.

Rental of the stalls has been limited this year but

Kenney has suggested that by inviting the members of the Haliburton County Farmers Market to use some of the area, more crafts people might be attracted to the mini-fair. At the moment the farmers with local produce have been selling their wares in stalls outside the pavillion. However, those renting the stalls inside have found the farm produce tables distracted the shoppers' attention from the crafts on display inside.

Kenney noted that while three buildings were ordered

for the mini-fair, only one is in use for that purpose. A second structure has been converted into the boundary information centre jointly funded by Anson, Hindon and Minden and Lutterworth townships on Highway 35. The other pavillion was used as a frame for the recently constructed washrooms at the fairgrounds.

Kenney told the meeting that it would cost between \$200 and \$300 and a day's labour to winterize the remaining mini-fair pavillion.

"We shouldn't expect the

rental of the buildings to create a profit on the investment in such a short time period," Kenney stated. "If it doesn't work out, the building can always be reclaimed for other purposes."

Reeve Lyle McKnight said he felt the idea should be tried for another year.

Preparing the structures for winter will involve anchoring the posts and reinforcing the eaves.

Kenney emphasized that the cost of the buildings is well within the amount budgeted by the municipality for the project, \$14,700.

Kenney objects

(from page 1)

early in September because the month started on a Thursday. The reeve suggested the office staff did not have enough time to prepare the summary in time for any earlier distribution.

McKnight said the council should have the finance committee review the report before it is brought before the full council.

Kenney said that if it meant adjusting the council meeting schedule to ensure everyone at the table was better prepared, he was in favour of such action.

McKnight said that it could take two days a month for close examination of the amounts being spent by the municipality. He said the matter should be discussed with the finance chairman, deputy reeve Ed Pergolas, when he returns from vacation.

"We don't want to end up having to hire more staff," McKnight added.

Kenney raised a similar

objection to the payment of the road accounts. He commented, "If the road committee is going to provide meaningful management of municipal funds, we should have more time to examine the figures." Kenney is chairman of the roads committee.

Reeve McKnight concurred with that statement, noting that before the summary comes before council for approval, it should be scrutinized by the road committee.

Kenney emphasized his point by registering a negative vote on the payment of the general accounts. The matter was carried with yea votes from councillors Burk and Stevens. Kenney tempered his stand somewhat on the payment of the public works accounts, voting in favour of tentatively approving the payment of the accounts, pending a review of the summary to be held Monday of this week.

Evaluating nuclear energy

- by John Eakins, M.P.P. -

My report this week and next week will be much longer than the usual Queen's Park reports. I am extending the length of the report because of the calls I have received from people concerned about the cost of hydro and the use of nuclear power. I do hope that everyone will take the opportunity to read the complete column and following your perusal, I would be pleased to have your comments. It is time that we took a long, hard look at Ontario Hydro and the use of nuclear power. This Queen's Park report will be followed next week with Part 2.

In the wake of the accident in Pickering's Number One reactor, which spewed 900 litres of heavy water a minute into a containment room, Liberal Leader David Peterson has called for the reconstitution of the Select Committee on Hydro Affairs, citing the following circumstances.

On August 1, radioactive water poured from a gaping hole in a ruptured pressure tube at Pickering, on the fringe of Canada's most populous area, and subsequent incidents eventually shut down three of the station's five reactors, alerting us to technical difficulties, and the costly - potentially frightful - consequences of Hydro's growing dependence on nuclear power. The "loss of coolant" (similar to the U.S. Three Mile Island incident) was the first within a CANDU reactor. Hydro officials had assured us that the zirconium alloy tubes would always leak before rupturing, permitting repairs to avoid a major accident.

This rupture overshadowed two other significant Pickering accidents: a heat exchanger malfunction sending 6.8 litres of tritium-laden water into Lake Ontario, and an operator error, causing automatic shutdown.

We are assured that radioactive discharge can be safely contained, but only a full explanation of the accident will reveal the implications of the rupture for the safety of the CANDU design.

The extent of Hydro's nuclear commitment must be scrutinized.

For example, this series of accidents will cost Hydro customers at least \$15 million for replacement fuels: repair and down-the-line expenses could run the figure beyond \$1 billion.

Pickering is a recent trouble spot. Accidents elsewhere have caused shutdowns and costly repairs: Bruce 2 shut down twice in 1982 - over \$7.5 million was spent on replacement energy provision alone during a 75

day period; Bruce 4 was shut down in March '83 for repairs to leaky pressure tubes and the primary heat transfer pump; a hydrogen leak shut down Bruce 1 for 19 days in April '83; early this year, Pickering 1 and 3 were shut down for planned repairs. Down times mean millions of dollars in extra costs, and the serious unexpected rupture raises the spectre of system-wide shutdowns and repairs, cutting billions of dollars.

There are no older full-scale commercial heavy water reactors on which to judge the future performance of Hydro's CANDU reactors. The oldest are the four at Pickering A - only 12 years old. Hydro arbitrarily expanded their projected lifetimes from 30 to 40 years for borrowing purposes, but no one knows when the reactors might become embrittled or wear out.

Hydro travels uncharted waters in the hope that Ontario's energy future does not run aground. Moreover, it would be folly to view the Pickering shutdown from the narrow perspective of costs.

Planners within Hydro have embraced nuclear power as a child does a new toy, arbitrarily picking nuclear power as the force of the future, placing all its eggs in the nuclear basket. Hydro's Chairman has forecast that 66 per cent of our electrical energy will be from nuclear generation by 1990. Fossil fuel thermal plants are placed in mothballs as nuclear construction continues apace.

Nuclear energy surpassed water power and coal as the largest power generator in Ontario in 1981. Non-nuclear installations worth billions of dollars have been - or will be - mothballed. Some examples: the Lennox oil-fired station near

Kingston, which cost \$489 million to build, mothballed in 1980 and 1982; the Wesleyville oil-fired station cancelled midway through construction, at an ultimate cost of \$460 million; two 300-megawatt coal-fired units at Lakeview to be mothballed April 1, '84; six R. L. Hearn coal-fired units shut down, with remaining two operating part-time until closure in '85; Windsor's coal-fired J. Clark Keith Station scheduled to be mothballed by year end, after receiving \$23 million in renovations; Atikokan and Thunder Bay coal-fired units tentatively scheduled for mothballing.

Mothballing Lennox will prove terribly expensive. \$60 million has already been paid not to take delivery of unneeded heavy oil, and Hydro is locked into a 15-

year contract with Petrosar, to buy 7.3 million barrels of oil annually, at a cost likely to exceed \$900 million.

Add to this, costly miscalculations which have ominously deepened Hydro's nuclear financial commitment: a 40-year contract to pay about twice the world price for uranium, at an additional expense of \$1.5 billion; \$69 million spent on Bruce's heavy water plant C before it was discovered to be unnecessary; \$396 million spent on heavy water plant D before construction was halted; mothballing costs run to \$15 million, and an over-supply of heavy water will lead to the mothballing of one of Hydro's two remaining plants.

Mothballing, implying that plants can be used in the future, may be a misnomer, since federal studies show deterioration can prevent heavy water plants being recommissioned.

More next week.

Now the leaves begin to fall
And mornings and nights get cold
Bring your car in for an overhaul
Before one of you gets too old.

SPOT THE SHOT

"This is a beautiful spot that never stops being a delight as I pass daily," writes the winner of the final Spot the Shot contest of 1983. Georgina Parkes, a resident of Toronto and cottager on Horseshoe Lake, correctly identified the scene in contest number ten as being that of the Orillia Water, Light and Power Company dam. The lake above the dam is Minden Lake while below is the Gull River. The dam provides electrical power for the city of Orillia. Georgina wins a \$25 shopping certificate from Easton's Red and White. It is redeemable at either Minden or Haliburton store. Just about everyone else who entered our final contest correctly identified the scene. (One person that the lake was Horseshoe). Those submitting correct answers included: Helen Golchuk of St. Catharines, Carey Drysdale, Alvin Cowen, Marjorie Cowen, Milton Sears, Dave Farrell, Ellen Holden, Jeanne Sears, Ken Holden, Louise Newton, Frank McCarron, Robbie Reid, Stephen Reid, Lisa Barry, Lorna Hicks, Tim Reid, Diane Cowen, Nancy Cowen, Don Hicks, Mrs. J. Elder, Bill Reid, Ian Hicks, and Mrs. Sandy Cole. Congratulations to all for having the correct answer. Special thanks to everyone who helped make this contest a success during the summer. Your comments in your letters were greatly appreciated. Thanks as well to Mike Easton for his support and help. We know the prizes helped to make the contest a great success. So, that is it for another year. But never fear, Spot the Shot will return next year.

Winky Dodds was once a name everyone associated with the Corduroy Enduro knew. However, three years ago he dropped out of the racing scene. He surfaced again this week with a bike he purchased the day before the Saturday start. Having not raced in three years and lacking the fancy equipment of some riders, Winky gamely competed in the expert heavyweight class. The rider, a former Haliburton resident, placed eighth in the class.

Goat shows successful

In co-operation with both the Kinmount and Haliburton County Fair Boards, the Haliburton Highlands Goat Society organized and conducted two of the most successful goat shows in the area at the respective fairs.

At the Haliburton County Fair there were one hundred and eleven animals on show in the competitions. All breeds of goat were represented at the fair, with winners too numerous to note here, however we would like to mention the first place finishers in the special categories.

Rokus Bezemer, of Orillia, won trophies for best doe in show and doe with the best udder in the show. Rokus Bezemer also won in the senior showmanship competition. For the best dam and daughter in the show Laurie McNevan of Lindsay won a trophy, as well as for the best breeders herd in the show.

The Johnson family cornered the remaining showmanship classes, with Pam Johnson winning intermediate showmanship, Jim Johnson winning in the junior showmanship competition, and Paul Johnson clinching the six and under category.

At the Kinmount Fall Fair there were one hundred and twenty eight animals in the competitions. We were pleased to welcome Mr. Jack Spiers to the show. Mr. Spiers is currently the interim President of the Canadian Goat Society.

In the showmanship competitions at the Kinmount Fair, the senior showmanship award went to Maurice Bradley, who is an active member of the Haliburton Highlands Goat Society. Intermediate showmanship went to Judy Garrick, while in the junior showmanship category Shelly Blanchard took home a trophy. Finally, in the pee-wee showmanship competition Paul Johnson won

another trophy for the mantel.

Other specials included six presentations to Jack Spiers, of Windsong Acres, for best doe kid, best doe in show, doe with the best udder in the show, best breeders herd in show, as well as both the senior and junior grand champion.

Other winners included Laurie McNevan, of Lindsay, for best dam and daughter in show; Marcella Kurmey, of Woodville, for best yearling milker in show; and finally Al Kurmey, of Windy Maple farm, for best doe kid under three months of age.

We would like to express our thanks to Mrs. Shirley Steele for an outstanding job of judging, for her patience with we who are novices at such things, and

for the wonderful way she approached the special needs of youngsters in the competitions.

As well we would like to thank Shirley Steele and her husband Brad, and Louise Webber of Gelert, for putting on display two rare breeds of goats for the general public at both fairs. The Steele's brought a pygmy goat, while Louise Webber had a pair of angora goats on display. Thank you both for the time and trouble taken to inform and enlighten us.

Finally a note of thanks to both fair boards, for their support and co-operation, and to the individuals and businesses of Haliburton who so generously contributed to the enhancement of the goat shows, and the expectations for future years.

Dixie Lee loses in semi final

The soccer season came to an end for the Haliburton Dixie Lee team Sunday as they were defeated by Huntsville 6 - 1 in a semi-final game. The contest was played in Huntsville.

The Haliburton team surprised everyone, including themselves, in advancing to the semi-finals where they found themselves facing the team which finished first in the eight game circuit. This was the first season for the Haliburton team.

The team was buoyed by its first half showing in the Sunday game. As the whistle blew, they were trailing by only one goal with the score 2 - 1. However, a couple of quick goals in the second half seemed to take the wind out of the Dixie Lee's sails and the first place finisher prevailed.

Paul Milne scored the

only goal for Haliburton. The marker was actually the first the team had scored against Huntsville all season.

While the season is over, the players have not hung up their cleats yet. This Sunday afternoon they will be playing an exhibition game against the HHSS senior soccer team. Both teams will be soliciting donations and pledges for the match with the proceeds being donated to the Terry Fox Marathon of Hope cancer research fund.

The contest will also help to get the high school team ready for the upcoming season. Tony Abela, the professional referee who has worked with the team all season, will be donating his services for the contest.

Game time at the HHSS field is 2 p.m.

CORPORATION OF THE TOWNSHIP of LUTTERWORTH NOTICE

IN THE MATTER OF THE MUNICIPAL ACT: and IN THE MATTER OF a proposed By-law of the Corporation of the Township of Lutterworth to stop up and close portions of the 66-foot 'unopened' Original Shoreline (Marine) Allowance for Road around the shore-line perimeter of Davis Lake, in the front of Part of Lots 7, 8, 9, and 10, Concessions 1 and 2, in the Township of Lutterworth and to convey the aforesaid Shoreline Allowance Portions to the abutting property owners.

NOTICE IS HEREBY GIVEN, pursuant to Section 301 (1) (a), of the Municipal Act, R.S.O. 1980, that the Council of the Corporation of the Township of Lutterworth proposes to consider and, if deemed advisable, to pass at its Regular Meeting to be held at the Council Chambers, 3 miles south of Minden on Highway No. 35, on THURSDAY, SEPTEMBER 15th, 1983 at the hour of 7:00 o'clock P.M. a By-law to stop up and close the parcels of land more particularly described as follows:-

SCHEDULE "A"

ALL those adjoining parts of the sixty-six foot Original unopened Shoreline Allowance for Road along the shore of Davis Lake in front of Part of Lot 10, in Concession 2, in the Township of Lutterworth, in the County of Haliburton, designated as Parts 1 to 9 on a Plan of Survey deposited in the Registry Office for the Registry Division of Haliburton (19) as Plan 19R-2856.

AND, in addition, to convey Parts 1 to 9 on Survey Plan 19R-2856 to the owners of the abutting Instrument Numbers 48815, 62039, 62038, 120078, 54176, 59879, 41739, 11738 and 105912.

SCHEDULE "B"

ALL those adjoining parts of the sixty-six foot Original unopened Shoreline Allowance for

Road along the shore of Davis Lake in front of Part of Lots 8 and 9, in Concession 1, in the Township of Lutterworth, in the County of Haliburton, designated as Parts 1 to 7, 9 to 19 and Part 25 on a Plan of Survey deposited in the Registry Office for the Registry Division of Haliburton (19) as Plan 19R-2857.

AND, in addition, to convey Parts 1 to 7, 9 to 19 and Part 25 on Survey Plan 19R-2857 to the owners of the abutting Instrument Numbers 79551, 97055, 55033, 21257, 75896, 2541, 75897, 21976, 16525, 91371, 90979, 60797, 70459, 119234, 70649, 35387, 47855, 47856 and 44309.

SCHEDULE "C"

ALL those parts of the sixty-six foot Original unopened Shoreline Allowance for Road along the shore of Davis Lake, in front of Part of Lot 7, in Concession 1, in the Township of Lutterworth, in the County of Haliburton, designated as Parts 1 and 2 on a Plan of Survey deposited in the Registry Office for the Registry Division of Haliburton (19) as Plan 19R-2835.

AND, IN addition, to convey Parts 1 and 2 on Survey Plan 19R-2835 to the owners of the abutting Instrument Numbers 94514 and 57542.

Copies of Survey Plans 19R-2856, 19R-2857 and 19R-2835 are attached to the proposed By-law and may be viewed at the Lutterworth Municipal Office during normal working hours.

AND TAKE FURTHER NOTICE that before passing of the said By-law at its meeting to be held at the time and place above-mentioned, the Council of the Corporation of the Township of Lutterworth, shall then and there hear in person or by his or her counsel, solicitor or agent, any person who claims that his or her land will be prejudicially affected by the said By-law and who applies to be heard.

DATED at the Township of Lutterworth this 10th day of AUGUST, 1983.

Mr. Wayne D. Hughes,
Clerk-Treasurer,
P.O. Box 176,
MINDEN, Ontario K0M 2K0

Beef producers will vote on check-off

This week, beef producers across Ontario have an opportunity to express their opinion on the refundability of the Ontario Cattlemen's Association check-off.

Under The Beef Cattle Marketing Act, when cattle are sold for slaughter or for further feeding for beef production, a check-off or license fee is collected for the Ontario Cattlemen's Association. This check-off is one-fifth of one per cent of the selling price, and this money finances the various activities of the O.C.A., including the advertising of beef.

The Act provides that a seller may apply for a refund of the check-off.

The Cattlemen's Association has asked the Ministry of Agriculture and Food to conduct this

expression of opinion poll. If two-thirds of the producers voting support the elimination of the refund provision, then the Act may be amended to make these fees non-refundable.

The poll will be a vote by ballot. Polling places will be at the County Agricultural Offices across Ontario, (plus 5 additional polls in very large counties in the north).

The polls will be open on

Wednesday, September 14 from 9 a.m. to 4 p.m.; on Thursday, September 15 from 9 a.m. to 9 p.m.; and on Friday, September 16 from 9 a.m. to 4 p.m.

Anyone who owned cattle for sale for beef purposes between June 15, 1981 and June 15, 1983, is eligible to vote.

Winter cereals

Winter cereal crops are on many farmer's planning books for September. What is the best variety to plant? When should I plant?

There are several new varieties of winter wheat on the market this fall. Augusta and Frankenmuth are the two new varieties showing good promise after the last two winters. Augusta is rated to stand almost as well as Frederick. Frankenmuth and Houser, another new variety, are next on the lodging list, followed by Favor, Yorkstar and Gordon.

With test weight,

Frankenmuth is rated next to Frederick, followed by Augusta with the other varieties all lower in test weight.

Frederick is the tallest variety and Houser the shortest. Houser has awns and tends to sprout easier. It is recommended if you have access to a dryer and earlier harvest. With several new varieties on the market, you may want to try Augusta or Frankenmuth to compare with Frederick or Favor.

Planting dates should be after mid-September and could be up to early October if fall conditions are favourable. Planting too

early results in more stress from aphids carrying Barley Yellow Dwarf virus and also the Hessian Fly. Both have been on the increase in winter wheat planted too early. The later planted wheat is also able to resist root rot organisms better than wheat planted too early. Remember, do not plant wheat on fields in wheat this year or following barley following wheat planted in 1981.

Events this week

Wednesday, September 14, 9 a.m. to 4 p.m., Thursday, September 15, 9 a.m. to 9 p.m. and Friday,

September 16, 9 a.m. to 4 p.m.—Referendum for Beef Producers re: Ontario Cattlemen's Association check-off. Vote at any County Agricultural Office. September 21 to 25—Lindsay Central Exhibition.

A lot of people call life "The Survival of the Fittest". You know, a lot of people are right.

PANTHROPACK

ACLD meeting

On July 14, an (ACLD) meeting was held at Tallpines School. The guest speaker was Cameron Sauder, who is now a counsellor at Camp Towhee which is a camp for learning disabled children and is located near Haliburton. Cameron told of his experiences as learning disabled through the years.

Another guest was Mike Barlow, who also working at Camp Towhee this summer. Both these boys have had many problems but are determined to succeed.

Cameron is attending George Brown College this fall and is enrolled in a course to become a social worker.

kid's korner

by Jean Lacey

Hi kids!

Here is another puzzle for you with a switch this week - it's all numbers. Look in the diagram of numbers for those given in the list. Find them by reading up, down, forward, backward and diagonally. They are all in a straight line and do not skip numbers.

It's as easy as that. Have fun.

4	0	7	1	1	7	8	0	8	3	3
5	1	0	0	2	8	9	8	0	1	6
9	5	6	8	7	2	5	2	7	6	8
5	3	6	8	4	7	8	3	0	9	7
7	5	9	8	4	7	6	1	1	2	5
7	7	0	1	1	7	8	4	8	5	8
2	9	2	3	9	2	9	0	7	7	6
9	0	3	0	8	4	7	1	2	8	4
1	1	2	3	7	9	2	2	4	4	8
3	0	2	9	1	5	5	8	1	8	1
4	6	6	7	8	0	1	2	7	9	0

Q: If you were locked in a cemetery at night, how would you get out?

A: Use a skeleton key.

Q: What kind of song do you sing in a car?

A: A car-toon.

Q: What is another name for a smart duck?

A: A wise quacker.

Q: What did the sea say to the shore?

A: Nothing, it just waved.

Q: What word do most people like best?

A: The last.

Q: What is the value of the moon?

A: Four quarters.

Before you store away your tents, tarps, awnings and duffle bags for the winter, let

senior league

by Bert Harrison

Well, the holidays are over and it's back to school once more to get the classes all in place, must be quite a chore.

In our chapel service Sunday evening the scripture reading was from the fifth chapter of John. All our faithfuls came again, the service to carry on.

We have Doris back again after a two week holiday. Linda faithfully takes over when Doris is away. We hear through the grapevine, (we hope it isn't just a rumour) that we will have Mary Oliver back again in two weeks or sooner. She has a birthday coming up, "Please come back we pray; how can we congratulate you when you're so far away."

Tuesday morning Rev. George Elliott of Minden Anglican Church, conducted an impressive communion service in the chapel this lovely September day. Agnes and Barbara came again to sing and play.

Tuesday noon Doris said if you men will pull up your socks and the ladies take a powder puff out of your powder box and you will promise to sit still and not make a fuss, we will take you

for a ride in the Hyland bus. So about one o'clock we took off down through Norland and Coboconk to see the Fenelon locks. It was a lovely drive and when it was over, the girls brought us safely back and all of us were sober. Tuesday night our players came from Grass Lake shore, entertained us royally, and still we asked for more. Cathy at the piano keys and Earl on the fiddle, a good time was had by all. Take your partners by the hand and promenade the hall.

Congratulations to Rev. & Mrs. Westhaver on their recent marriage. They are holidaying by the seashore, where Rev. Westhaver spent some years before.

We are sorry our Cheryl Dillon has a strep throat, it seems there is always something to get a person's goat. We saw your picture in the paper of the winning ball team, congratulations gals, does it all seem like a dream?

We have Fred Bamforth here a real nice guy we say, he walks down to Minden sometimes twice a day. Then there is Victor MacBrien (if he can find his hat) he could walk several miles a day, now how about that?

The Kinmount horticultural society ladies came over Thursday afternoon brought along a lovely lunch and we played some lively tunes. Some of our residents just took a chance, Ted, Lola, Edith and Linda did the chicken dance. They also waltzed around the room and did the heel and toe. We thank the Kinmount ladies and to make the job complete one of them danced to "Oh Susannah" in her stocking feet.

Bingo started Thursday night when members of the Kinsmen club, Larry Amyotte and Steve Crowe, we thank you for coming and putting on the show.

With Annie Cox we were having a little chat and she said one of her great grandsons has bought the Minden

Laundromat. The Shorter's son came up from Oshawa and he was really glad to have a nice visit in their townhouse with his Mom and Dad.

Friday afternoon we had no singsong as it used to be, instead we saw the second part of the movie "The Wilderness Family", a most interesting picture and still has one more part. We have enjoyed it from the very start.

House & Home

A house is built of logs and stone.

Of tiles and posts and piers.

A home is built of loving deeds.

That stand a thousand years.

(Victor Hugo)

around the county town

by Yvonne Guida

Dear Readers, the following is an account of our tour of the Maritimes. Father and I left the Red Carpet Inn on Saturday, August 27th, aboard the Denure Bus Coach for a tour of the Maritimes. I cannot praise our driver Earl Thurston and our tour guide Evelyn Hicks highly enough for their wonderful efforts and kindness to the passengers entrusted to their care. We drove to Quebec City, where we spent the night at Lowe's Le Concorde, a beautiful hotel. The following morning, we were taken on a tour of Quebec City, a really beautiful, and majestic city with so much history, following which we took off for Edmundston, New Brunswick. On the way we were treated to a weaving shop and a museum where they have marvelous wood sculpture Musée Des Anciens Canadiens. That night we stayed at the Wandlyn Motor Inn, another fine place. The following day was spent touring King's Landing, a reconstructed pioneer village then on to Moncton, New Brunswick. On our way, we stopped at the Magnetic Hill which was a fascinating experience. Earl, our driver drove down the steep hill to the bottom and put the bus in neutral, then we slowly were pulled up the hill again until we were back where we started. We also visited the Reversing Falls Park, New Brunswick, and the home of Lucy Maude Montgomery, author of Anne of Green Gables. I won't bore you with a lot of details but will just touch on a few places of interest. We toured Lunenburg, home of the Bluenose which is the most famous vessel in Canada's Maritime History and appears on Canadian 10¢ pieces. Peggy's Cove, when the glaciers melted, where I visited All Saints Anglican Church and sat in the very seat where Princess Diana and Prince Charles sat this year. I understand she is expecting again. People on the bus said it must be this good Canadian air. Then we toured the Shrine of Evangeline that Henry Wadsworth Longfellow immortalized, at Grand Pre, which tells the story of the Acadians. Evangeline is a fictitious character, but there was a woman who did live a life similar to Evangeline. We also visited the home of Thomas Haliburton for which the county is named. We crossed the Bay of Fundy on the Princess Acadia, a beautiful ship. The trip takes three hours on some of the roughest water in the world. When the tide comes in, the water rises fifty

feet. I composed my poem, *Widow's Walk*, while crossing. We went through Maine, New Hampshire and Vermont where the mountains are gorgeous. We visited a maple syrup factory in Vermont and had a picnic of lemonade and cookies by the roadside. The following day we regretfully said goodbye to all our companions and ended our trip in Lindsay. I picked up my darling Brandy in Fenelon Falls and we wended our way home. I came home with a great deal more sympathy and understanding of people and their emotions, and why things are as they are. I heartily recommend Denure Tours to everyone.

Widow's Walk

This was written on tour after seeing the homes in Lunenburg and vicinity which have Widow's walks on the roofs of their homes, where women could look for their men at sea. Her solitary footsteps pace the walk
All through the day, and darkest night.
Her gaze is steadfast
Locked on the relentless sea.
Her prayer that is unanswered
Oh dear Lord, bring back my love
Oh bring him back to me!
The gulls above that wheel in endless circles
Their piercing, eerie cries
Echo against the wind -
The wind that will blow forever
Forever on her tears and remembrances
Blow on dreams that have been shattered
Oh hopes that can never be,
For her love, and all she has longed for
Lie at the bottom of the timeless sea.
And still she waits and paces
A shawl about her shoulders
As the night grows cold,
And somehow in the darkness
She is now so old!

The home of Roy and Marjorie Windover was the setting for the second annual Windover family reunion on Sunday, September 4th. Eighty-seven year old Mrs. Mary Windover of Sunrise Apartments enjoyed the

afternoon with her son and daughter and their families which included ten grandchildren and thirteen great grandchildren, forty-six in all, coming from Toronto, Bradford, Burketon, Lindsay and Fenelon Falls. An afternoon of fun and games culminated in a corn roast, potluck dinner and singsong, followed by presentations of prizes for the day's activities.

Mr. and Mrs. George Earle of Springdale, Newfoundland, are holidaying with his brother Harry and Grace Earle.

Sunday, September 11th, Mrs. Mary Windover, Mr. and Mrs. George Earl, Mr. and Mrs. Al Garden and Mr. and Mrs. Harry Earle, Mr. and Mrs. Shawn Hagerman, Adam and Katharine attended the Christening of Diana Christine Earle, daughter of Ron and Heather Earle of Burketon in Hampton United Church. Following the ceremony, family and friends returned to Burketon.

Recommended for your reading pleasure, Stephen King's Different Seasons.

CFMX has recently changed hands and a new licence is required. The application for it will be examined by the CRTC and a hearing will be held on October 18th, 1983. If you are a classic buff and want to support the application, please make your intervention to the Director General Broadcast Licences, Central Building 1 Promenade, Deu Portage, Hull, Quebec. K1A 0N2.

Scientists have long been aware of the pernicious effects of acid rain, but some questions about the phenomenon remained incompletely answered. Exactly how is it formed? Is there a direct connection between man-made air pollution? Would industrial controls be effective? The National academy of Sciences has come out with a report that Acid Rain comes from man-made sources. Further pollution controls would reduce it. Such controls should begin now.

Friends of Velma Harrison will be happy to hear that she is settled in Mississauga, has gone back to nursing and is at present working part time at a rest

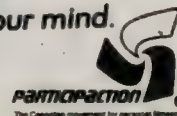

home. All of us wish her the best.

The September meeting of the Minden Women's Institute will be held at the Library Cultural Centre, September 21st at 2 p.m. All ladies are welcome.

Florence and Phil Robinson had an enjoyable visit on Wednesday with their niece and nephew Eileen and Paul Cockburn of Woodville.

Mr. and Mrs. Earl Hewitt attended a reunion on Friday, September 9th at the home of Mr. and Mrs. Arthur Thorpe of Caledon Hills. Also attending were Mr. and Mrs. Jack Blair, Nanimo, B.C., Mr. and Mrs. John Johnson of Houston, Texas, Mr. and Mrs. Albert Blair of Tucson, Arizona, Mrs. Pat Clarke of Reaboro, also Maxine of Kitchener, Mrs. Peggy Bird of Pickering, Mrs. Margaret Marks of Thornhill, Mr. and Mrs. Wm. Blair of Port Perry, all cousins, some who had not met in 40 years. A good time was had by all.

ANNOUNCEMENT

The Agnes Jamieson Gallery

The gallery is alive with
colour, and a very nice
feeling seeps in as you view
the work of the Lindsay 5.
The group consists of Sadie
Barnes, Mary Hartley, Betty
and Charles Leung and
Dorothea Weise, all resi-
dents of the Lindsay area,
and we are indeed fortunate
to be the first gallery to show
these artists as a group.

The gallery is open
Monday through Saturday
10 a.m. to 5 p.m.

Bobcaygeon Road N.
Tel.: 286-3763

BIRTHS

MASTERS - John and
Allison are pleased to
announce the birth of their
daughter Rebecca Ann, 6
lb., 13 oz., on September 9,
1983 at Scarborough Cen-
tenary Hospital. A sister for
Danny and granddaughter
for Len and Shirley Masters
of Toronto and Charles and
Shirley Brandon of Minden.

CARD OF THANKS

I am finally home after
eleven weeks in hospital. I
would just like to say thank
you to all who sent cards,
letters, flowers, phone calls,
and those who visited me
especially Rev. Wicks, all
the prayers for recovery I
know the Lord was with me.
A special thank you to my
daughters and family. They
really did an excellent job
looking after their father
and me.

Dorothy Walker

THANK YOU

The Haliburton Highlands
Goat Society would like to
express our thanks to the
following individuals and
businesses who contributed
so generously to our cause at
both the Haliburton County
Fair and the Kinmount Fall
Fair: Coboconk Feed Mill;
individuals from the Village
of Haliburton; employees of
the PineStone Inn; Rosen-
berg's Eggs & Feed; Easton's
Red & White; Varty's
Jewellery & Gifts; Halibur-
ton Pharmacy; and Mrs.
Levesque, of Lucky Choice
Dairy Goats, Sussex, New
Brunswick. 9B

I wish to thank the many
people I have met and
enjoyed knowing while I was
employed at Mabel's Cut N'
Curl. Also to those I worked
with - Mabel, Susan, Dana,
Cherylin and Barb.

Jennette Riches

AT REST

CALDERONE - Matthew
Michael. Beloved son of Gus
and Debbie Calderone of
Markham, aged 6 weeks, in
the Cardiac Unit of the
Hospital for Sick Children
on Sunday, September 4,
1983. Dear grandson of
Maurice and Lillian Winter-
flood, R. R. 1, Minden,
formerly of Unionville and
Michael and Concetta
Calderone of Scarborough.
Dear and only nephew of
Bryan Winterflood and
Sonny and Mary Raslawski.
Interment was on Wednes-
day, September 7 in Holy
Cross Cemetery, Thornhill.
